

ADV3550

Instructor: Genevieve Hitchings

Week 5 Homework:

Read:

<http://www.noupe.com/design/simplicity-in-good-web-design-advantages-how-to.html>

1. Keep working on your look and feel. I expect you to have a Photoshop file of your home and/or gallery pages. This should both be in strong enough shape to be critiqued in class.

Make sure you review all the handouts given in week three and four. I expect you to use the grid as shown in the example.

2. Test Next Week.

I will be giving you a test on the first four classes' content. If you have kept up with the readings and assignments, you will do fine. Please review all the handouts I have given.

3. Revise your Resume

Please make corrections to the resumes I handed back to you (print and resubmit to me next week). I would also like you to revise the edits to your resume online and refine any necessary resume styling. Please send me a link to your **revised resume by Friday March 5th**.
