Are you, your family, your neighbors and community living near Natural Gas Drilling, Exploration & Production sites and activities?

Are you concerned about the impacts of Natural Gas sites and activities on your family? On your water? Your food? Your livestock and pets? Have you noticed changes in the natural world around you?

Do you have information about the impacts of gas drilling to share? Are you tired of your experiences being ignored? or being dismissed with no official report? and no one will listen? This Survey can help.

How will this Survey help?

- Get your experiences officially recorded with the Agency for Toxic Substances and Disease Registry, a division of the CDC (Centers for Disease Control) in the Department of Health & Human Services.
- Petition to get a Public Health Assessment in your area.
- This Survey has been created to help you and your community, and change public policy. Your information will go towards creating a national database and a national review of drilling (NGE&P) impacts.

So please, take the Natural Gas Health and Community Impacts Survey

(see links on the banner **Survey Information Menu** and in the right column)

Not sure the Survey is for you?

Read the [letter of invitation from Damascus Citizens' Director](#).
Pay a visit to [ATSDR's website](#) and to [Damascus Citizens.org](#).

And remember, we're just a click away by email.

We welcome input from gas/oil industry workers/employees.

Choose the
Survey version that
suits you best:

Digital/Electronic:

Use this version if you can complete the Survey online. This is the best option to maximize the impact of your Survey information.

Downloadable PDF:

Download this version if you cannot take the Survey on-line and need to fill it out by hand. Or contact us and we will send you a printed version.

In either version everything you need is included.

When you have completed your Survey, here's your [Downloadable COVER SHEET](#) to include with any supporting documents.

How can I get help filling out
the Survey?
